/ JOYCE<sup>IS3</sup>

ENJOY SEATING PERFORMANCE.

**JOYCE<sup>IS3</sup>**  
COMBINE TILL  
IT'S MINE.

**A master of transformation knows how to impress with versatility.** Whether you are working in an open-plan or an individual office, when concentration and work processes require support, JOYCE<sup>IS3</sup> focuses entirely on the individual. The flexible swivel chair with a big personality puts the requirements and preferences of its user at the heart of the matter. It offers numerous options to create custom combinations of backrest versions, upholstery and colour designs. With this great variety, JOYCE<sup>IS3</sup> creates space for optimum performance – and also adds an element of fun while choosing your dream combination.

PERFECT  
COMBINATIONS FOR  
THE BEST SOLUTION.

**As versatile as it is consistent.** JOYCE<sup>IS3</sup> effortlessly adapts to any environment. It impresses with three different looks while always staying true to its unique character. From the classic upholstered version, through modern mesh designs, to the extraordinary contours of the new FlexGrid backrests – JOYCE<sup>IS3</sup> brings artistic flair into any office, offers all relevant

adjustment options and scores extra points with its smart features. The highly customisable office swivel chair is available as a medium and a high version – with or without adjustable headrest. The frame, the connection to the backrest as well as the chair column and the base are **available in two colour concepts – black or light grey.**

**Inspired by the perfection of nature.** The JOYCE<sup>IS3</sup> FlexGrid is a real eye-catcher. Its extraordinary design mirrors human anatomy. It supports the spine's natural curvature using two innovative components with different levels of hardness. This ensures that stability and flexibility are optimally balanced.

## FLEXIBLE SUPPORT YOU CAN SEE AND FEEL.

**Strong support** – with its modern, discretely futuristic contours, the new JOYCE<sup>IS3</sup> FlexGrid is sure to add a special touch to any room. At the same time, the backrest provides visibly dynamic back support – and relieves the strain on your body during focused work processes. The FlexGrid can easily be adjusted in height and – with a handwheel – also in depth.

THE FREEDOM TO  
FOCUS ON  
THE ESSENTIALS.

**Joyful colour variety.** In addition to its flexible appearance and outstanding technical features, JOYCE<sup>IS3</sup> particularly stands out thanks to its wide variety of colour options. The cool, breezy mesh backrest variant – as well as the Softback version – comes in nine appealing colours. As a brand new feature, the mesh

backrests can now be combined with matching mesh covers for the seat pad to create a perfectly harmonious appearance. Alternatively, users can choose a seat cover from Interstuhl's wide fabrics and leather range. The result is almost infinite freedom.

PERFORMANCE IS  
A QUESTION OF THE RIGHT  
ATMOSPHERE.

SOMETIMES IT'S ALL  
ABOUT SOFT SKILLS.

High-grade decorative welted seam  
between the upholstery cover and  
technical fabric

**Welcome to your new comfort zone:** In the upholstered version, JOYCE<sup>IS3</sup> combines a comfortably soft seat with high-grade design and perfect workmanship. To increase resilience, the backside of the backrest upholstery as well as the side elements of the seat are covered with black technical fabric. This fabric is connected to the upholstery cover with a characteristic welted seam running along the sides of the seat and backrest. Due to the large selection of fabrics, the upholstered version also provides users with great freedom of choice for their personal colour combination. That way, JOYCE<sup>IS3</sup> provides a classic shape and comfortable seat – while making it fun to choose individual configurations.

COMBINING THE BEST  
SO YOU CAN  
LEAN BACK AND RELAX.

**Comfortable, pleasant – and always perfectly ventilated.**

With the new Softback, JOYCE<sup>IS3</sup> combines the advantages of a traditional upholstery with those of a mesh cover. A three-dimensional mesh fabric ensures good ventilation, a uniquely pleasant feel and a comfortably soft seat. The Softback version also comes in nine modern mesh colours, with seats available in the same colours as the backrests to create the perfect match.

# NOW IT'S TIME TO MAKE YOUR JOYCE<sup>IS3</sup>.

The journey to your favourite spot is short and sweet. JOYCE<sup>IS3</sup> offers a clever modular system for putting together the perfect office swivel chair. It only takes a few simple steps to achieve the best custom solution. Three characteristic appearances, two basic frame colour concepts, a wide selection of fabrics and colours, differ-

ent heights – with or without adjustable headrest – JOYCE<sup>IS3</sup> lets you combine all elements to your heart's content. It is fun and also provides a high degree of safety. You can freely combine the technical features and the appearance to suit your tastes, JOYCE<sup>IS3</sup> also offers an impressive price/performance ratio.

Daniel Figueroa, born in Havana, Cuba, in 1965, is a renowned furniture and interior designer. With JOYCE<sup>IS3</sup>, he has created a smart concept in which a small number of components allow an extraordinarily large number of possible configurations. The focus is set on the backrests: A closed, fully upholstered version and openly designed mesh covers, as well as the new Softback. The transparent design impressively highlights the special feature of JOYCE<sup>IS3</sup>: the FlexGrid, inspired by the perfection of nature. Whether you favour the modern or the traditional, JOYCE<sup>IS3</sup> ideally covers all aesthetic and functional aspects of today's working world.

**Sustainability:** Interstuhl is a pioneer in the field of environmentally-friendly and resource-saving production of seating solutions. The family-run company is one of the first companies in the industry to receive EMAS certification since June 1996. The development of JOYCE<sup>IS3</sup> also stands for responsible behaviour, for a clean environment and

resource-efficient material usage. Up to 98% recyclable materials with a high rate of natural materials are used during the continuously environmentally-friendly production. Interstuhl has an integrated Management System (ISO 9001/14001/EMAS/BS OHSAS 18001/ISO 50001) that fulfills the high standards of the company.
